## **ALDERMEN/ADMINISTRATOR'S REPORTS**

**Alderman Gass said it was nice to see new development coming in to Branson. GASS**

**Alderman Barker stated that Debbie Redford does do an excellent job but he try's not to single out any specific employee because he thinks all of the employees do an excellent job. As a City we really try to empower our employees to be free thinkers; to show initiative; and not to micro-manage them. It is a real compliment to all of the employees and to Terry, Larry, and all of the staff that encourages the employees to go out and research and bring new ideas to us. Mr. Barker said he felt that was one of the things that make this a great City that we empower them to go out and show initiative and to try and do good things. BARKER**

**Alderman Huff said he thought it was alright every now and then to single out an employee for the great work they do. Sometimes we take for granted all of the good things some of them do, like Debbie Redford and her work with recycling and water quality, and keeping our City beautiful and litter free. Also the great work the Health Department is doing to educate our citizens about the viruses. We are starting to get a lot of national and regional attention for all of that good work. The effort that has been put into this sure makes for a better quality of life for all of us, indicated Mr. Huff. HUFF**

**Alderman Huff asked for an update on the animal shelter Administrator Dody gave a brief update on the Taney County Animal Shelter. He stated that currently the City has started taking animals back to the Shelter. City staff is working closely with the County Commission and Dr. Reynolds, the veterinarian for the County, whose name is on the license at the facility, and acts as the official vet for the facility. Again, this is not the City's facility, we simply have a contract with them to take our animals out there and then we transport per the contract. HUFF**

**Alderman Huff congratulated Carol McCullough and Steve Mefford for their great work on controlling the "Cruisin' Branson" event this past weekend. It went much smoother than it has in the past and there was a huge amount of people in town. Mr. Huff said he knew it took a lot of effort from a lot of people and the Board really appreciated the work that went into it, and the help Branson received from HUFF**

the Springfield Police Department, State Highway Patrol, Taney County Sheriff's Office, and Hollister along with any other agencies. It is a great event and it went much better this year, indicated Mr. Huff.

Alderman Huff said he had read in the paper that APAC, the company HUFF company that was awarded the contract for the construction of the road project in Hollister has been indicted, and asked if the City of Branson had any contracts with them that might affect our scheduling or anything. Administrator Dody stated, the City has no contracts with that company.

Alderman Edie said he would just like to echo a couple of the other EDIE Board members comments on the Recycle Center. He said he had been using the Recycle Center ever since it started and every year it seems to be able give better service. They are very quick, and he doesn't know who is responsible for all of the volunteers, but it is a fine facility, and he would just like to remind people that in a lot of towns, these facilities start and fail. Ours is a very excellent facility and it helps the community and from what he sees it is going towards paying at least part of the operation. He also encouraged everyone to use the facility as much as they could.

Alderman Purvis said he would like to reaffirm what the other Board PURVIS members have said. He indicated he was privileged to witness personally the outstanding job the emergency service people such as the Police Department, Ambulance District, and Fire Department, and wanted to say in the strongest words possible "they did an outstanding job", and he is really proud of all of our emergency services people for they go far beyond and above.

Alderman Purvis said he too wanted to thank the Springfield Police PURVIS Department, Hollister Police, Highway Patrol, and the Taney County Sheriff's Office for participating and helping with the crowd control during the "Cruisin' Branson" event. It was an exciting evening and he thought things went extremely well, indicated Mr. Purvis.

Administrator Dody said that on that note, he would like to inform the DODY Board that Carroll McCullough was the one that came up with a strategic tactical zone plan to change how it has been handled in the past, which turned out to be extremely successful. His control over the situation was outstanding and his implementation of his tactic zone made a huge difference, along with additional personnel he was able to achieve better crowd control this year. Mr. Dody then asked Carroll to provide a short update on the event. Assistant Police Chief Carroll McCullough reported on "Cruisin' Branson" and the zone tactics that were used. Mr. McCullough indicated this year the Police Department had some excellent backup and he was pleased to say that it went much better than it has in the past, although they experienced the same problems with careless and reckless driving, people drinking and intoxicated spectators. He indicated he was happy to be able to say that he believed it was the direct result of the resources on hand that it went so well. The extra officers from Taney County Sheriff's Office, the fifteen officers from the Springfield Police Department, and the Missouri State Highway Patrol made a difference. In order to

get them back we will probably have to bear some of the cost for their officers but it is money well spent, stated Mr. McCullough. The Highway Patrol has already committed to assist next year because it went so well this year. Staff is also working on getting it moved to another weekend so that it is not being held during the State Fair in Sedalia. That will enable the Highway Patrol to provide additional assistance, he informed the Board. He ended by saying he was very pleased that it went much better than in the past.

**ADJOURN:**

At this time, Mayor Schaefer entertained a motion to adjourn. Alderman Huff made the motion to adjourn, seconded by Alderman Purvis. Voting aye: Gass, Barker, Huff, Edie, and Purvis. Nays: None. Martin absent. Motion carried. Meeting was adjourned at 8:40 p.m.
